VIOLIN EXAMINATION RESULTS

Following were the results of examinations recently conducted by the Toronto Conservatory of Music, for Blainmore centre, with Mr. Donald Hains as examiner:

Introductory—Fred Instone, Hillcrest, first-class honors.

Introductory School—R. G. Silcock, Hillcrest; Rudolph D'Amico, Coleman; Paraska Gushul, Blainmore, and Agnes Langin, Pincher Creek, first-class honors. Esther Topp, Pincher Creek; Willie Royle and Jack Ferguson, Blainmore, and George Thornton, Hillcrest, honors.

Elementary School—Lawrence Fisher, Hillcrest, first-class honors. Louisa Gridland and Seth Halton, Pincher Creek (Hd); Mary Stevenson, Hillcrest, honors. Renee Pierlot, Frank, and Bette Godfrey and Tony DeCocco, Coleman, pass.

Primary—George Kerr, Blainmore, first-class honors.

Primary School—Beth Moores and Olga Belevich, Coleman; Gordon Schoening, Pincher Creek, and Edna Evans, Hillcrest, honors. Theodore Neumann, Pincher Creek, pass.

Junior School—Jean Cruickshank, Hillcrest, first-class honors. Helen Rose, Hillcrest, and Evan Gushul, Blainmore, honors. Samuel Richards, Hillcrest, pass.

Intermediate School—James Marshall and Catherine Rose, Hillcrest (tied), and John Pietroszko, Coleman, honors.

Elementary Theory—Donald Thornton, Hillcrest, first-class honors. Sylvia Evans, Hillcrest, honors. Edna Evans, Hillcrest, pass.

Primary Theory—Jean Cruickshank, Mary Davies and James Marshall, Hillcrest, and Albert Coldough, Pincher Creek, first-class honors. Catherine Rose, Hillcrest, honors. Helen Rose, Hillcrest, pass.

W. H. MOSIER, Teacher.

BUT THE RACKET WOULD

NOT LET HER BE GOOD

She was not happy being bad, but the racket would not let her be good. That's the unfortunate situation Mae Clarke, the heroine of "The Good Bad Girl," the Columbia drama opening at the Orpheum tonight, finds herself in.

How she overpowers the forces working against her, comprises a picture that approaches the popular gangster theme from the woman's angle. It is said to be a really powerful character analysis of a woman who wanted to quit a racket and grab a little decent happiness for herself. Thus a human interest story of a woman's emotional struggle is interwoven with a powerful story of the machinations of the underworld. However, it is said that the gangster element is kept in the background; the stress being laid on the woman in the story.

Mae Clarke, who scored such a tremendous success in the role of "Molly" in "The Front Page," plays the part of "the good bad girl." James Hall is cast as the young man who offers her all that is beautiful in life, while Robert Ellis is the brutal gangster who tries to prevent her having it. Others in the picture are Marie Prevost, Paul Porcasi, Nance O'Neil and Edmund Breese.

BLAINMORE PUBLIC LIBRARY

The following three books, kindly presented by Mrs. N. C. Corbett, are going on the shelves Saturday: "The Pool of Wisdom, Etc." "The Kingdom of Happiness" and "The Immortal Friend," all by Jiddu Krishnamurti. Jiddu Krishnamurti, Hindu philosopher and poet, recently visited Calgary during a tour of Canada. His philosophy of life, which is embodied in his writings, is creating a widespread interest among thinking people.

The library hours are Tuesdays and Thursdays from 7 to 9 p.m., and Saturdays from 7 to 10 p.m. The fees are \$1.00 per year for residents and \$2.00 per year for non-residents.

DEADLOCK CONTINUES

Latest reports state that negotiations for a settlement of the strike in the Blainmore and Bellevue mines of the West Canadian Collieries, in the Crows' Nest Pass, affecting between 600 and 700 men, have broken down. Last week Premier Brownlee visited the mining camps, and as a result of his efforts negotiations looking to a settlement were re-opened after six months of strike. On Tuesday afternoon the mine management announced that no agreement could be arrived at. The management is willing to sign an agreement for two years at the old rate of pay, but claims the right to strike from the payroll the names of 50 men who have been leaders of the "R-d" element which is controlled by the Workers' Unity League, claimed to be dominated by the Third Internationale at Moscow. All other mines in the Crows' Nest Pass are working.

NEW FILM BOASTS

SEVEN STAR CAST

Richard Dix, Mary Astor, Eric von Stroheim, Joel McCrea, Dorothy Jordan, Robert Armstrong and Hugh Herbert, every one a magic name in the realm of entertainment, comprise the principals of the brilliant cast of RKO Radio Pictures' thrilling serial classic, "The Lost Squadron," at Cole's theatre Monday, Tuesday and Wednesday next.

Richard Dix, whose performance in "Climarron" won him a secure place in the hall of screen fame, plays the starring role of "Captain Gibson," dare-devil film stunt man. Mary Astor, whose screen life is one excellent role after another, enacts the part of "Follette," a temperamental movie star. Eric von Stroheim, actor, director and stormy petrel of film, is cast as the eccentric director, who sends players into danger for the sake of celluloid thrills. Joel McCrea, Armstrong and Herbert have strong roles, and Dorothy Jordan plays the ingenue. George Archaimbaud directed.

CARD OF THANKS

John Kerr and family, of Passburg, desire through The Enterprise to thank the following for floral offerings:

Wreaths—Mary, John Jr., Dad, Jim and Florence, Uncle Bill, Mr. and Mrs. James Redfern, Mr. and Mrs. G. Coupland (Bellevue), Plunkett & Savage (Blainmore), Bellevue Horticultural Society.

Sprays—Mr. and Mrs. A. D. May and family, Medicine Hat; Mr. and Mrs. Knight, Lethbridge; Mr. and Mrs. R. Holmes, Coleman; Margaret and Edgar Reid, Coleman; Mr. and Mrs. J. Jackson and family, Coleman; Mr. and Mrs. D. F. Hutton and family, Mr. and Mrs. H. Harrison and family, Mr. Jim Tutt, Mr. and Mrs. J. Gerrard, Mr. and Mrs. E. C. Costick and family, Mr. and Mrs. J. D. McDonald, Mr. and Mrs. J. A. Barbour, Mr. and Mrs. Robert Glover, Miss Gladys Knowles, Mr. and Mrs. H. Meade, Johnson & Couzens, Mr. and Mrs. C. Emerson, Mr. and Mrs. Thomas Nansen, Mr. and Mrs. E. W. Christie, Bess and Gordon, Ladies Aid United Church, Mr. and Mrs. J. A. Curry, Mr. and Mrs. James Fisher, Mr. and Mrs. D. Curry and Miss Morris, Mr. and Mrs. J. Curry, Mr. Bellevue; Mr. and Mrs. J. A. Curry, Hillcrest; Mr. and Mrs. R. Bower and family, Michel, B.C.; Mr. Harold Pinkney, Mr. and Mrs. H. Blake and family, Mr. and Mrs. W. W. Scott and family, Blainmore.

Funeral service was conducted at the family home by Rev. Roy C. Taylor, of New Dayton, assisted by Rev. J. Wood, of Bellevue.

Following were the pallbearers: John Brown, Calgary; E. C. Costick, Bellevue; James Redfern, Passburg; F. H. Duncan, Fernie; Robert Holmes, Coleman, and John Curry, Bellevue.

"Fresh from the Gardens"

Help Our Youth Now.

Within recent weeks daily newspapers throughout the Dominion have printed columns, and sometimes solid pages, of names of young men and women who have graduated from universities and colleges or passed the final examinations of their Normal, technical, collegiate, high school or business college courses. The total number of these young people in Canada runs away up in the thousands every year, and last year and again this year has been no exception.

In the case of the University and college graduates they have, with a few exceptions who will go on with post-graduate work, come to the end of one phase of life. The same is true of the vast majority of those who have completed Normal, technical, collegiate, high school, and business college courses. A certain number of these will go to university, or take up some special course of further training, but, generally speaking, these students have ended the days of their scholastic preparation for life.

In a word, this great army of youth, who in their teens and early twenties have been studying and undergoing training, has completed this first stage in life's journey. They have been preparing for work. They are now ready to go to work, and are eager to begin, bubbling over with enthusiasm and keyed up with energy for the work ahead, and stirred with ideas and ambitions of what they expect and desire to accomplish.

And right at the outset they are met with rebuff, with crushing disappointment. In an overwhelming majority of cases there is no work for them to do, no positions open for them to fill, no opportunities knocking at the door to which they can respond. True, there is the odd case where through family or other influence a position is made available, but, by and large, inability to secure work is the experience of this army of today's youth, trained, eager and ready to work. They find themselves in a world which offers them little or no opportunity to use their hard won knowledge and training.

Herein lies the greatest tragedy of present day conditions, herein is to be found the greatest menace not only to the future lives and usefulness of these young people, but to the future of our country. At the close of one period in their lives, they are confronted with a blank wall; they cannot retrace their steps, they cannot go forward. What are they to do except "mark time" for the present and, while marking time, what is to be effect on their enthusiasms, their energy and initiative, their ambitions,—in a word, on their character? They must fill in the time in some fashion. During this trying period of enforced idleness, are they going to develop habits of shiftlessness, slip into evil ways, weaken morally? Is the clear, straight thinking of their student days to become twisted, and the strong anchorages deeply imbedded in the wisdom and experience of the past which have been instilled in them to be uprooted?

These are questions to be answered not only by present-day youth, but by the more adult generation. The elders of today have survived other depressions, other panics and crises, and they know that the evils of today will be overcome and pass away. They have confidence that there are just as good, even better days ahead; that the future holds just as great opportunities, just as great in fact, than the past, and that these opportunities will come to the youth of today as they came to them, but youth, lacking the experience, is not sure of this. It has had its golden visions of immediate activity and usefulness in the world of work dimmed, if not shattered. They are hurt and bewildered. They are not at all sure of the future, and are in a questioning state of mind. They do not know where to turn. Parents and friends are absorbed in their own difficulties, worried and apt to be impatient.

The elders of this generation require to develop an understanding of their children's problems and present outlook on life, to reveal to them deep sympathy, and to cultivate a divine patience with them. Parents can, perhaps, do more in these days to make or break the future lives of their children than was possible the case in other years.

And what is true of the parents is likewise true of those who are the leaders of and responsible for the life and activities of the communities in which they live. Youth must be served, and if active remunerative employment for a time cannot be provided as an outlet for their energies and enthusiasms, then other provision must be made.

Students of the problem confronting youth at present suggest two forms of activity for them in the absence of other employment. One, that in each and every community adequate means and forms of recreation be provided to engage the interest of and provide an outlet for the energies of youth,—in all departments of sports, in properly supervised dances, in the organization of orchestras, glee clubs, amateur theatricals, debating societies, libraries containing books on inventions, explorations, science, etc.

Second, in the arousing and developing of an interest among young people in the welfare of the community in which they live. If remunerative occupation cannot be provided for the youth of the community, give them the opportunity to serve themselves through some form of recreation and to serve others and the community at large until the opportunity to realize their ambitions returns. The elders of the community can develop such programmes,—there is always a need, and probably more so now than ever before,—and by the application of the enthusiasm and energy of youth they can be carried through. It will keep them out of mischief, and give them something to think about besides their own problems. Instead of becoming narrow, selfish and bitter, such an interest will broaden their outlook and such activities will accustom their lives. They will discover much to be thankful for; that in many ways they are not so badly off after all; hope will be revived, confidence restored, new, and possibly better conditions aroused.

Out in the cattle country according to a Western paper, it is not unusual to see a \$50 saddle on a \$15 broncho. Huh! Around here we're always running into—or being run into by—\$5 cars wearing \$15 licenses.

"Look here, waiter, I've been waiting half an hour for that steak I ordered."

"Yes, sir, I know sir. Life would be worth living if everybody was as patient as you are."

Suffered A Severe Attack Of Dysentery

Mr. P. L. D. Moulard, Vernon, B.C., writes: "Last Summer I suffered from a severe attack of dysentery. I tried nearly everything on the market, without getting any relief, until a friend told me to use Dr. Fowler's Extol Wild Strawberry, which I did, and I got immediate relief. Now I am making it a rule to always keep a bottle of it in my medicine chest."

"Wild Strawberry is sure relief for dysentery, colic and diarrhoea, but I always see I get the genuine Dr. Fowler's."

The Coming Motor Car

New Models Show Trend Toward Stream-Line Appearance

The automobiles of the future will look more and more like one another, we are told in an informative article by T. R. Elliott in MacLean's Magazine. This will not surprise the class observer of this year's models for a tendency in this direction is already apparent. However, cars may differ in other respects—in materials, appointments or power—their appearance will conform to the stream-line. They will adopt, Mr. Elliott says, a shape very much like that of a teardrop rolling down the sheet. It is the shape of the raindrop, the bird and the fish. Man, having experimented has found that nature was right, after all. The great advantage of the teardrop shape is in the saving of power. It seems that at 50 miles an hour the teardrop uses about ten horse-power as against the 30 used by the ordinary sedan. It means a saving not only in gasoline but in engine construction. Automobiles should tend to become cheaper and more economical to operate. There are other improvements along this highway that leads to the "perfect" car. One of them is suspected to be the super-balloon tire. Others have to do with materials, lubrication and engine design. The last word in automobiles has not yet been uttered. The industry has an interesting future.

WHOLE FAMILY WITH INDIGESTION

A mother of four writes:—"Myself and family of four all suffer from acidity, pains in the back, and other forms of indigestion. I suffered whatever I ate. But since we have been taking Kruschen (for the last three months) we can eat anything, and all enjoy our food much better. We never have a trace of acidity or pain now. I think it is wonderful. Kruschen is a natural and safe acid, takes all the ferment out of it, and gently expels it from the system, and by stimulating your organs of elimination to perfect regular action, Kruschen will prevent this harmful acid from ever becoming active again. After that you'll experience no more misery after meals. Kruschen will keep your inside clean and clear. Pure and invigorated blood will be sent coursing to every part of your body. You'll feel wonderfully energetic and well. As healthy and hearty as it is humanly possible to feel."

Food Prices Decline

Cost Of Food Half Of What It Was In 1921

Cost of food today over the store counter is considerably less than half what it was in 1921, and has shown a marked decline since 1929, a report issued by the Dominion Bureau of Statistics shows.

The index numbers of the Dominion Bureau of the retail prices of food 11 years ago stood at 141.1; in 1929 it was 101, slightly over the base of 100 in 1926, and in July this year it was 61.4, a drop of 39.6 points in three years.

The index number of clothing, fuel and rents has also declined, and on the whole the change in the cost of living is shown by a drop in the total index from 99.9 in 1929 to 80.8 last month.

Practically every item of food shows reductions, including meats, butter, milk, bread, sugar, coffee and tea. Vinegar is a lone stand-out, showing little change. It was 7.5 cents per pint in 1929. Today it is 7.5 cents.

Dragged Down By Asthma. The man or woman who is continually subject to asthma is unfitted for his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an array of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

Using Canadian Ports

Canadian ports are being used by Canadian shippers to a greater extent than possibly ever before, and the routing of the Dominion's grain to the United Kingdom via the Red Sea route is increasing. Formerly, United States ports got the bulk of Canadian grain for shipment overseas, but this situation has been changed in the past year.

"The modern girl is nothing but an animated doll," declares a novelist. He must admit, however, that she doesn't call "Mamma" when she is squeezed.

Made by Janarius Gagliano, in Naples, in 1745, a violinello was sold in London recently for \$1,250.

Soft corns and warts are ugly, painful and irritating. Remove them quickly and surely with Douglas's Egyptian Lintment.

A Prime Favourite

Men who "roll their own" have made Ogden's fine cut cigarette tobacco a favourite—it makes better cigarettes more quickly—this brand has always sold on its merits.

Free "Chancellor" cigarette papers with every package.

OGDEN'S FINE CUT CIGARETTE TOBACCO

Bidding For Tourist Trade

Canada Can Draw Business By Advertising Pleasure Resorts

Tourists in Canada, 1931, spent \$297,238,000. Canadian tourists abroad spent \$115,292,000; Canada's net debt to tourists was \$165,948,000. That's a debt that's all to the good in these days of so many bad ones, and Ontario and Quebec which got the major portion of it are to be congratulated on the successful harvest of their advertising. Canada's balance in tourist trade is so much greater than her balance of trade in commodities that catering to tourists looks almost like a Wallingford scheme for the rapid accumulation of wealth.

Saskatchewan is the latest province to make a bid for the trade of tourists. Previous to the opening of the Prince Albert National Park, Saskatchewan was stricken with a poverty of playgrounds, and had only the sight of the waving seas of wheat to offer as an inducement to vacationists. However, she has boomed the name of the park by catering to two motorcades from the south, one from Montana and the other from the states as far south as Colorado adjacent to U.S. highway 85.

The second party included the governors of North Dakota, South Dakota and Wyoming, and it is slated as an annual affair to arouse and maintain interest in what is termed "the international highway of three nations," with Prince Albert National Park at one end and Mexico at the other. —Edmonton Journal.

Revenue From Radio

Receipts From Radio Licenses Exceed One Million Dollars

Receipts from radio receiving licenses this fiscal year already exceed \$1,600,000. This means 500,000 owners of sets have taken out licenses. This is said to be about half of those owning sets. It had been planned to prosecute those who did not take out licenses voluntarily but it has been decided to first make a house to house canvass. Commander C. P. Edwards will have charge of organizing this Canada-wide undertaking.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powders will clear the stomach and bowels of worms and will so act upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

Engineers of 18 countries are meeting in Milan, Italy, to confer on international uniform standards for airplane and automobile parts and other articles.

Mechanical household refrigerators are taking the place of the traditional cooling cellars in apartments in Belgium.

EAGLE BRAND CONDENSED MILK

Canada Now Importing

Raisins From Australia Supply Formerly Came From United States and Spain

"Have you had your iron today?" That is what the raisins people used to shout at us some years ago, and of those who had heard, and thought we needed iron, promptly went out and bought raisins that came from Spain or the U.S.A.

It is different today. We've begun to mix imperialism (not the old sort) with our iron, have started to buy our raisins from South Africa and Australia. Australia, indeed, is now sending us more raisins than we get from across the line.

The new trade treaty importation of Australian raisins has increased from 4,069,098 pounds in the first six months of 1931 to 4,489,309 in the same period of 1932. In the half year of 1931 we imported 8,291,732 pounds from the United States, but the import has declined this year to 5,422,603.

The last three months demonstrate very clearly the efforts which Australia is making to capture our raisin trade. The amount imported from Australia has been 4,291,690 pounds as compared with 2,239,352 from the United States.

Incidentally, all of us who are prescribing the need for and benefits of trade within the Empire can help along the good work by "buying British." —Ottawa Journal.

A Corrector Of Pulmonary Troubles. Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended by all the best of the medical profession with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Mystery V.C. Holder

How Commander Agar Won Coveted Decoration Was Never Revealed

Commander Agar, who is with H.M.S. Scarborough in the West Indies, and who was gravely hurt as the result of a seaplane crash that drowned two American passengers, was known as the mystery V.C., no details having been given of the act that won him the coveted bronze cross after the Great War was well over. But when the Bolsheviks placed \$5,000 on Commander Agar's head just after their cruiser "Olig" was torpedoed off Kronstadt people put two and two together. Commander Agar, with his aid on the "Olig" in a small motor-boat, ran the gauntlet of Russian destroyers and heavy fortress guns, repaired damages to his craft while under fire, and made off with sails commandeered from a Russian fishing boat.

Protect the child from the ravages of worms by using Mother Graves' Worm Extremator. It is a standard remedy, and years of use have enhanced its reputation.

Old Coin Survives Fire

Was Imbedded In Silver Of Others That Melted

A coin 1133 years old, dated A.D. 799, has been found at Corning, Illinois, among the possessions of Jake Bittner. Mrs. Bittner's father was a coin collector, but when his home burned the coins were melted. The metal was thrown in a trunk. Dug out recently with an eye toward selling the silver metal, the mass revealed one coin imbedded in the silver. Made of copper, it had not melted.

An analyst has found iron filings in tea, chalk in custard powder, and zinc in sauce. Fired by his success, he is now bent on discovering pork in pork-and-beans.

The Amsterdam-Paris air line has installed flying telegraph offices for the use of its passengers.

Erect Higher Buildings

Permission Granted To Construct Buildings In London To Height Of 100 Feet

An upward advance in the height of buildings permitted to be constructed in London has been allowed by the County Council. Henceforth structures may rise to a height of 100 feet. The previous limit was 80 feet. Risk of fire has been the principal factor in limiting the upward extent of London buildings, but under present methods of steel construction the risk is considerably lessened. It is doubtful, however, whether the subsoil would bear structures of skyscraper proportions, though heights of 200 feet are anticipated.

"I wish my wife would not live beyond our means."

"Why does she do it?"

"Just to impress the neighbors who live beyond their means just to impress us."

Bilious For Days

At Time Until She Took Vegetable Pills

Graciously, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed."

Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acid, Headaches, Poor Complexion and indigestion. Write for free literature to any druggist. Ask for Carter's by NAME.

CANADIAN WOMEN FIND DUSTING DISTASTEFUL

Dust cloths going into discard; Unpleasant to use; a bother to wash

APPLEFORD WONDER PAPER HAS GREAT VOGUE

Of all household tasks, that of dusting is the least appealing to the majority of women.

However, this condition, like many another connected with housework, is undergoing radical change. In a great many homes where the women are discarding dust cloths entirely, and are using Appleford Wonder Paper instead, because it actually dries—as it cleans—as it polishes, doing a better and much quicker job than the old dust cloth ever did.

This new, and extremely modern Wonder Paper, is made from clean rags, and soft paper pulp, treated in a scientific way with a high-grade furniture polish; and sheathing dirt instead of spreading it.

Appleford Wonder Paper comes in handy-size packages, twenty-five large sheets for twenty-five cents. You crumple a sheet into a soft wedge and go over the surface requiring attention. Then when one side is soiled or worn, turn the Wonder Paper inside out. After you have given a quick and lasting finish to furniture and woodwork, you can still use Wonder Paper on the floor, if you wish.

And when you are through, there's no old dust to shake out or wash. Throw the soiled Wonder Paper away and you've completed the most tiresome part of housework in half the time and with half the effort.

Wonder Paper is made by the makers of famous F&A's SPAN Heavy Waxed Paper in the Green Box.

Special Offer Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If your haven't, we'll be pleased to supply you from the factory. Just fill in and mail this coupon.

Enclosed Paper Products, Ltd., Hamilton, Ontario. Please send me a full-size package of Wonder Paper and your 100 recipes for "Left-overs."

REACH HIGHEST ALTITUDE EVER ATTAINED BY MAN

Cavalieri Di Monsenaro, Italy. — August Piccard and Max Cosyns came down to earth Thursday afternoon, August 18, having gazed on the world from the greatest altitude ever attained by man—more than 10 miles.

When they landed they were somewhat shaky, very tired, and exceedingly modest. Swarms of persons, including government officials who came by aeroplane, descended on them, but neither Piccard nor Cosyns was in a mood to accept applause.

Professor Piccard made certain the balloons which had taken him into the stratosphere were well cared for and that his delicate scientific instruments, which may have recorded evidence to indicate whether the universe is dying or immortal, were safe.

Then he thanked his wife, who until recently had been reluctant about allowing him to repeat the dangers he encountered on his first stratosphere flight last year. After that he revealed a little about his amazing experience.

He said that three hours after they took off Thursday morning, August 18, from Dübendorf, across the Alps in Switzerland, they reached their maximum height. From that vantage point the world was a strange looking place. Landmarks were indistinct and maps were of no use.

Only the large lakes below him served to indicate to Professor Piccard exactly what part of the earth he was over. He recognized Lake Garda, 12 miles northwest of this village, and decided to land. It took him more than two hours to bring down his balloon.

"We are very well satisfied with our flight," the professor said, while hundreds of gaping farmers stood about staring at the men who had been far above the rain and the clouds in a little aluminum ball attached to a balloon.

Their altitude was 10,700 metres, or 54,776 feet. On the professor's first flight last year the top height was 51,793 feet.

Professor Piccard, 48 years old, lean, his head crowned by a shaggy mass of hair, and his 25-year-old assistant, took off at 5:06 o'clock Thursday morning, August 18, (11:06 p.m. Wednesday, August 17, eastern standard time). They were in the air about 12 hours.

When the balloon had been deflated after the landing here and safely folded up, and the instruments had been taken care of, the professor and his assistant motored to Desenzano.

It was almost midnight when they left. Their every move had been watched by the crowds of stocky peasants to whom this was a most extraordinary matter, for the peasants are not newspaper readers and they had no idea what the queer globular carriage represented.

Along about midnight the balloon and aluminum ball were loaded into an air force truck and hauled to the aviation school in Desenzano, where they were placed in a hangar. Neither Piccard nor Cosyns would leave the spot until their apparatus had been stowed away.

Finns Leave For Russia

Hundred From Ontario Consistent Soviet Will Supply Work
Halifax, N.S.—Sporting red alken rosettes attached to their clothing by a small star with a sickle and hammer device, 100 Finns from Ontario set sail on the SS. Kangsholm to work in Soviet Russia.

With few exceptions they declared themselves confident work would be provided for all as soon as they arrived in the land of the Soviets.

To Test New Airplane

Berlin, Germany.—An aeroplane which will retract the steps of aviation to study the flight of birds is awaiting a trial at Tempelhof Aerodrome. It has a wing construction approximating the wings of a seagull and its aim is to secure greater stability in the air. Hans Richter, pioneer glider flyer, is the designer.

Welsh Coal For Winnipeg

Winnipeg, Man.—A trial shipment of 1,500 tons of Welsh anthracite coal to heat Manitoba homes has arrived in Port William and will soon be brought to Winnipeg by rail, according to an announcement made by the Winnipeg Supply and Fuel Co. It will replace hard coal formerly imported from the United States it was stated.

W. N. U. 1956

Mounties May Police B.C.

Would Bring Whole Of Western Canada Under Federal Force

Victoria, B.C.—Consideration of turning over to the Royal Canadian Mounted Police the policing of British Columbia is under consideration of the department of the attorney-general. It was definitely learned here. The development is one of the results of the Kidd report on British Columbia's finances. It was stated.

The arrangement proposed provides the abolition of the British Columbia Provincial police and 38 municipal police forces, all of which cost \$1,700,000 annually. City police forces of Vancouver and Victoria would be continued as at present.

Completion of an agreement for policing British Columbia by the Royal Canadian Mounted would bring the whole of western Canada under the federal force. Saskatchewan turned over its policing to the Royal Canadian Mounted Police almost four years ago, while Alberta and Manitoba provincial forces were absorbed this spring.

For National Bank

Native Sons Of Canada Want Revision Of Canadian System

Quebec, Que.—The Native Sons of Canada want revision of the Canadian banking system.

After lengthy discussion, reorganization in convention here adopted a resolution embodying the following points:

(1) Creation of a national banking commission having discretionary powers over all matters pertaining to all Canadian banks;

(2) Creation of a Canadian national bank, to serve as a reserve bank;

(3) Greater protection for bank depositors together with stricter governmental surveillance of banking practices.

Lack of interest shown by Canadians in Dominion Day, and refusal of some industrial and business firms to declare a holiday on that day was deplored in another resolution adopted by the convention.

S.S. Pennyworth Arrives

Docks At Churchill With Miscellaneous Cargo

Churchill, Man.—With a miscellaneous cargo in her holds consigned to western Canada points, the British steamship "Pennyworth" docked here after an uneventful voyage from Liverpool.

Six freight steamers will call at Churchill, the new Canadian ocean port on Hudson Bay, during the present season of navigation, it was announced Wednesday, August 17, by Hon. Dr. R. J. Macklin, Minister of Railways and Canals.

Estate Will Be Auctioned

Large Property Of Earl Of Egmout To Be Sold

London, England.—Calverton estate, a property in Buckinghamshire belonging to the Earl of Egmout, is to be sold by auction, it was announced recently.

The youthful "Rancher Earl," who succeeded to the title on the death of his father four months ago, has returned to Canada and is living on the Alberta ranch at Priddy, where "Mr. Percival" farmed until he became the 10th earl in 1929.

Calverton estate covers about 461 acres, with a small residence, three farms, 32 country cottages and some valuable building land.

New Shotgun Device

Youthful Inventor Claims Weapon Can Fire 400 Shots A Minute

Chicago.—A 20-year-old junior college student is inventor of a device which he claims will convert an ordinary shotgun into a death-dealing device capable of shooting its customary ammunition at the rate of 400 shots a minute—and has pledged himself to keep it from gangsters and criminals.

The inventor, Charles A. Michal of suburban Elmhurst, said the device can easily be attached to any shotgun. It has been submitted to local police departments for thorough tests.

African Explorer Dead

New York.—A special cable to the New York Times, reported the death at Bournemouth, England, of Capt. Poulet Weatherby, geographer and African explorer, who discovered the source of the Congo at the age of 72.

Mutual Preferences

Committee On Foreign Relations Makes Recommendations

Ottawa, Ont.—The Imperial Conference committee on foreign relations is understood to include in its report recommendations that:

(1) No treaty obligations into which the empire countries might enter in the future should be allowed to interfere with any mutual preferences which the governments of the commonwealth might agree upon.

(2) The empire countries will free themselves from any existing treaties as might interfere with mutual preferences which may be agreed upon.

The United Kingdom has trade pacts giving most favored nation treatment to Soviet Russia and Argentina. No treaties, though, are specified in the report.

Lancaster Is Acquitted

British Flyer Is Freed On A Charge Of Murder

Miami, Fla.—Captain W. N. Lancaster, British flyer, was freed on a charge of murdering Haden Clarke, young writer and his rival in love, Wednesday, August 17, by a verdict which precipitated a court room demonstration that threatened to go beyond the control of bailiffs.

The 12-man jury deliberated four hours and 48 minutes before acquitting him on one complete ballot.

He had been on trial since August 2 in one of the most sensational hearings in the history of South Florida—a trial that brought out the secret love lives of himself, Haden Clarke, and Mrs. Jesse M. Keith-Miller, Australian aviatrix in full detail.

Export Flour Unloaded

First Shipment Arrives At Churchill For Overseas

Churchill, Man.—In the presence of several Canadian National Railway officials the first Canadian flour ever shipped out of the north was unloaded from a special train in the new freight shed.

The shipment comprised 31 cars from Robin Hood Mills, Saskatoon and Moose Jaw, destined overseas.

ITALY PLANNING TO SCRAP THIRD OF ENTIRE FLEET

Rome, Italy.—One hundred and thirty thousand tons of Italy's fighting ships—practically one-third of the entire navy—will be retired under a programme beginning August 25. The purpose is to save money.

When the programme has been completed, Italy will be without a single battleship. The "Andrea Doria," 22,700 tons, and her sister ship, the "Duilio," which were rushed to completion in 1915 when Italy entered the world war, will be placed out of commission. Under the Washington treaty, Italy has the right to 170,000 tons of battleships, but she has elected to disregard this category in favor of heavy and light cruisers.

A report presented to the disarmament conference showed that the whole Italian navy totals 404,000 tons, including 20 ships still under construction.

The need for economy was indicated by the fact that some new ships are intended for retirement. There are four of the 12,000-ton destroyers of the newest Italian type.

CALLS FOR MORE TREES

Hon. James P. Bryant, as Chairman of the Saskatchewan Commission on Conservation, is advising the farmers of that province that the present is the time to go in for a tree planting campaign. He lays particular stress upon the use of Caragana hedges to stop soil drifting.

Retrenchment Programme

Manitoba Government Plans Drastic Cut In Expenditures

Winnipeg, Man.—Government members of the Manitoba legislature met in the first caucus since the election, to pass on a retrenchment programme planned by the government of Premier John Bracken, involving a saving of somewhere between \$500,000 and \$1,000,000.

Previously, Hon. D. G. McKenzie, Minister of Agriculture and Hydro, had announced for purposes of economy his department will not send an exhibit to the Royal Winter Fair at Toronto this winter; this move will result in a saving of some \$5,000.

Falling revenues since the estimates were submitted in the legislature last spring have made necessary drastic curtailments in Manitoba government expenditures. For instance, more than 3,000 fewer passenger cars are being operated in Greater Winnipeg this year, and 12,600 fewer passenger cars for the whole province, according to figures on motor vehicle licences obtained by the Manitoba tax commission.

Irish Tariff War

President De Valera Showing Little Interest In Question

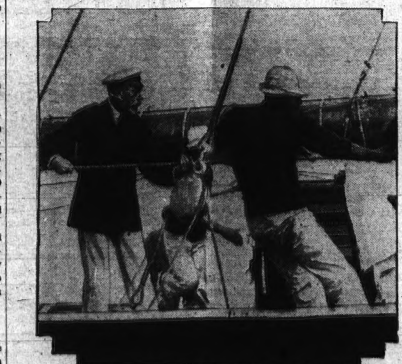

Dublin, Ireland.—If fresh overtures are made for negotiations to end the tariff war between the Irish Free State and the United Kingdom, they must come from London. This is the general understanding in official circles here.

Concentrating on internal problems, President Eamon de Valera has shown little interest so far in the question of reopening negotiations. He is said to be well aware of the difficulties confronting his new policy, now that retaliatory tariffs on both sides have dislocated trade across the Irish Sea. Default of Free State land annuities to Britain started the difficulties.

Explorer Will Be Honored

Toronto, Ont.—Elienne Bruie, French explorer, who came down the Humber River here in September, 1613, the first white man to look upon Lake Ontario, will be remembered in a memorial to be unveiled here September 17. Plans have been completed for the unveiling, which will be under the auspices of the Women's Canadian Historical Society.

OUR SAILOR KING

An unusual picture showing King George at his favorite sport. He is seen aboard his yacht "Britannia" during the racing at Cowes, during which the royal craft carried off first honours. His Majesty is shown leading a hand at the ropes.

Braving Ocean In Canoe

Two Scandinavian Sailors Leave Haida Headed For Vancouver

Montreal, Que.—Braving the dangers of the Atlantic and Pacific oceans, two experienced Scandinavian sailors left here August 16 in an 18-foot canoe en route to Vancouver via Cape Horn. The navigators, Helge Berup, 42, Danish, sailor and newspaper editor, and Harold T. Jensen, 35, a veteran ship's officer, expect to complete the journey in about two years.

The craft, an Ontario product, is equipped with a sail, outrigger and rudder and will carry the two men, who weigh about 200 pounds each, together with 800 pounds of equipment made up of a tent, clothing, fishing lines, camping utensils and modern navigation instruments.

The two plan to sail down the St. Lawrence River, through the gulf and along the coast of the Maritime provinces and New England states to Boston and New York, where stops will be made. Their itinerary will then take them to Key West and thence to Havana, Cuba.

From the Pacific Coast they intend entraining to the Thunder Bay district for an inland water voyage back to Montreal.

Jensen navigated the Amazon River alone from its source to the sea in 1924.

German Political Situation

Hitler Says He Will Not Use Storm Troops To Gain Power

Berlin, Germany.—Chancellor Franz von Papen has received assurances Adolf Hitler will not use his storm troops to seize political power, but in any event he will not hesitate to suppress any revolt by force of arms.

The chancellor made this assertion in an interview in which he vigorously reiterated Germany's demand for equality in armaments with other nations, desiring the fathersland no longer could submit to being treated a second-class nation.

Although the cabinet situation still is in a state of flux and there is no telling who will rule Germany after the new Reichstag has been called into session this month, the chancellor appeared serenely confident his government would stay in power.

Asked whether he expected to be chancellor next Christmas he said: "We shall be in office for a long time."

Grant Provided For

Money For Grain Show Will Be Available As Required

Ottawa, Ont.—The balance of \$140,000, which remains of the Dominion grant for the world grain show, will be held in Regina next year, will be made available as required.

A vote was put in the estimates last year for \$150,000, and \$10,000 of this has been paid over. This has been announced at the Department of Agriculture.

The management of the fair is in the hands of an executive committee headed by Hon. W. C. Buckle, Minister of Agriculture in Saskatchewan.

CONSIDER PLANS FOR FINANCING DIRECT RELIEF

Winnipeg, Man.—Special sessions of the three prairie legislatures may be called this fall to consider a plan to finance direct unemployment relief if the Federal Government does not continue arrangements made last fall, according to reports in official circles here.

Under an agreement the Federal Government, provinces, and municipalities each were to pay one-third, the Dominion Government in addition agreeing to assist the province to finance its share. The Dominion Government later notified the province that it did not propose to continue this arrangement after April 1.

Each of the prairie governments now is confronted with the situation of being unable to borrow for relief purposes except on bank overdraft, and under the circumstances this is not possible.

Calgary, Alberta.—Representatives of the four western provinces and cities may meet Premier R. B. Bennett to discuss unemployment relief, when the Prime Minister comes to Calgary about the end of August. Provincial delegates had planned to meet the Prime Minister at Ottawa, but following a report that Mr. Bennett would be in the city in less than two weeks, it is expected representatives will seek an appointment here.

DELEGATES ARE ENTERTAINED AT THE CAPITAL

Ottawa, Ont.—Tributes to the people of Ottawa for the hospitality they have extended to the delegations attending the Imperial Conference and to all the efforts put forward to make the sojourn of the conference pleasant and comfortable were voiced at the luncheon tendered by the mayor and corporation of the city to the delegates.

The beauties of Ottawa, its natural environment and its dignified public buildings, had impressed the visitors.

Sean T. O'Kelly's remarks were also in lighter vein. He felt, he said, that he dare not refuse to speak at the luncheon because the Irish Free State was "so seldom heard, and gets very little publicity."

"We have to fight hard for the small share of sunlight given to us," Mr. O'Kelly declared, "and if I lost this opportunity I would soon hear of it."

Ottawa, said the Free State leader, was "almost too beautiful a setting for the serious occupations of an economic conference."

Hon. N. C. Havenga of the South African delegation, Rt. Hon. J. G. Coates of New Zealand, Hon. F. C. Alderdice of Newfoundland, Hon. W. M. Moffat of Southern Rhodesia and Sir David C. Chatterjee of India also spoke.

The addresses were closed by Rt. Hon. R. B. Bennett, who thanked the city and the people of Ottawa for their co-operation in the work of making the visitors feel at home.

French Steamer Sails

Leaves Churchill Bound For France

Churchill, Man.—While the holds of the British steamer "Pennyworth" are being filled with flour, rolled oats and wheat at this new northern port, the French steamer "Sierrentz" is plowing northwest through the waters of Hudson Bay with a cargo of wheat bound for Le Havre. The "Sierrentz" was the first boat to arrive this season and the first to leave.

Her load of 250,000 bushels of No. 1 Northern wheat is consigned to L. Dreyfus, the French grain importer and Scotch whisky for the "Sierrentz" was the first boat to arrive this season and the first to leave.

The "Pennyworth" brought the first inbound freight to enter the new port, 500 tons of miscellaneous goods. It included Scotch whisky for the Manitoba and Saskatchewan liquor commission, chinaware, glass, motor oils and electrical equipment. The goods will move out by rail shortly to Regina and Saskatoon.

Britain Would Tax Road Users Heavily

Railway and Highway Authorities Propose Higher Levy

London, England.—Heavy additional taxation on users of the public highway is proposed in the report of a joint conference between railway and highway authorities in Great Britain, issued recently.

"Mechanically propelled vehicles" should pay \$240,000,000 a year to ward the cost of roads, the report recommends. Of this commercial vehicles should pay \$94,000,000, and others \$146,000,000. The report urges a much heavier tax on commercial vehicles, particularly the larger type.

Not Afraid Of Weight

Toronto, Ont.—Life guard Tom McGarry is not afraid of size when called on to rescue some one in distress.

Hearing cries for help as he patrolled his section of the lakefront here, McGarry responded and brought to shore William Cuddy, 47, whose estimated weight in his bathing suit was 315 pounds.

Faithful To Duty

Toronto, Ont.—Faithful to the last minute of a quarter century's service, Engineer Dave Martin fought off a heart attack as he brought his fast Canadian National freight train into Toronto from South Party Sound. As the locomotive pulled into the Union Station, Martin fell dead on the floor of his cab.

Date Of Race Advanced

Hamilton, Ont.—At the request of Gar Wood, Detroit speed-boat driver, the first of the Harnsworth trophy races on Lake St. Clair will be run on Saturday, September 3, instead of the previous Friday, as originally scheduled.

NOW WE SHALL HEAR FROM
THE FINANCIAL CRITICS

During the course of his address last Saturday afternoon at the Drumheller Arena, Premier Brownlee, while dramatically waving a copy of the provincial public accounts, and estimates for the year, challenged his political opponents to find one case of extravagance in this bulky volume, or in the estimates. And, during the course of his address, he gave his government several pats on the back. It was a real fighting political speech, just as one would expect on the eve of an election.

But, as we sat at the press table, we could not help but think of our old friend, George Webster, M.L.A., Calgary, house leader of the provincial Liberals, whose middle name is public accounts, and estimates. How he glories in them, and how he can put his finger down on government extravagance and point it out to the members of the house, both in committee and on the floor of the house. He has found plenty of extravagance and unnecessary items, but as he once said to us, "What is the use, the U.F.A. government have such a majority, that, no matter how hard one kicks, they pass items." But he keeps on the tail of the government, as regards unnecessary expenditures, guarantees and what not.

Then, the Conservative leader, Mr. Duggan, is some financial critic, and the records of the house will show that he has found fault, and plenty of fault.

Then take the leader of the Independents, our own P. C. Moyer, has been most diligent in regards the public accounts, and has offered many an objection and a criticism of extravagance and unnecessary expenditures. Other members of the opposition, including William Howson, the Edmonton battler on the Liberal side, have attacked the public accounts. They have not dealt in totals, as the Premier has stated, but in individual items. Naturally, all these members of the legislature, when speaking at the different public meetings, have attacked the Brownlee Government on what they call wasteful and unnecessary handling of the public funds.—Drumheller Review.

THREE NORMAL SCHOOLS

Announcement by the Hon. Mr. Baker, minister of education, that schools would all be operated again for another term comes somewhat as a surprise at a time when the provincial government is expected to adopt measures of strict economy in all departments.

If there was a scarcity of teachers in the province, that would be a good and sufficient reason for operating all three normal schools. Actually, however, the opposite is the case, for there are far more teachers than positions can be found for.

The cause of education would not suffer in the least, and a considerable sum of money would be saved by the province if one of the normal schools was closed.

"Bennet buggies" are the vogue in the dried-out areas of Saskatchewan. Being unable to take out car licenses, or to buy gasoline, the family car has been utilized to meet conditions. The body is taken off and a home-made box built on the chassis. The farmer rides on balloon tires, but instead of being propelled by gasoline, the faithful old horse is again drawing the load. Even the reeve of a municipality, who owns five sections of land, drives to council meetings in a Bennet buggy.

Local and General Items

There is the comforting thought that it is easier to keep up with slow times.

Wladek Zhyznow won fr in Jack Taylor at Calgary on Tuesday night by a foul.

W. M. Archibald made a flight from Creston, B.C., to Truro, Nova Scotia, in 27 flying hours.

A recent explorer of sub-Arctic Canadian regions estimates that 500,000 caribou are killed yearly in Canada by wolves.

With lower liquor prices likely in British Columbia, the price of beer in hotels and retailers is being advanced one dollar a barrel.

M. P. Cotte has returned to Pincher Creek from a motor trip to Montreal. Mr. Cotte made the round trip, a distance of 4540 miles, and experienced only one flat tire.

Supplementary departmental examinations for the district are in progress at the local school, commencing this forenoon. Pupils are in attendance from Coleman, Hillcrest, Bellevue and Frank.

The marriage of Fred Watson Guerdar, only son of Mr. and Mrs. A. E. Guerdar, of the Coleman hotel to Emily, only daughter of Mr. and Mrs. R. M. Greenhalgh, was solemnized at Coleman on August 12th.

Some person or persons have been busy during the past week or two destroying gardens, and the results of considerable labor left desolate. Efforts are being made to capture the culprit or culprits, and if caught an example will be made of them.

The Coleman hotel will change ownership on August 31st, when transfer from A. E. Guerdar to Messrs. George Dickson and Joe Lipowski will be made. Mr. and Mrs. Guerdar will take up residence in Calgary.

E. McMullen, former resident of Frank, now representing a Calgary Frigidair concern, is in The Press this week. Mr. McMullen was pleased to meet a large number of old timers and former pals. Away back in the early days of Frank, when that town took second place to none in the Dominion for its size, Mr. McMullen worked in the A. V. Lang store.

Special holiday fares for the Labor Day week-end will be the same as those given by the railways for the other long week-ends of summer. Return tickets, good between all stations in Canada, will be sold at the rate of one and one-quarter times the first class one-way fare, the going portion good from noon Friday, September 2, to noon Monday, September 5, and the return portion good until midnight, September 6. The time of the going portions of tickets has been extended to noon Monday this year, instead of to Sunday night, as in previous years.

Succession duties in connection with the A. E. Cross estate will approximate \$115,000. The net value of the estate is \$886,284.28. Helen Kothney Cross, of Calgary, the widow, is bequeathed Calgary real estate and the sum of \$600 monthly for life. James B. Cross, the eldest son, is left one-third of the ranching properties, 2995 shares in the Calgary Brewing and Malting company and one-quarter of the estate. Alexander Cross, son, aged 17, is left one-third of \$28,000 one-third of the ranching properties, 2994 shares in the Calgary Brewing and Malting company and one-quarter of the residue of the estate. John Cross, son, aged 15, shares in the estate to the same extent as Alexander Cross. Margaret Cross, daughter, aged 19, is left a trust fund on securities to the par value of \$50,000 to be created within five years after the death of the testator and \$150 monthly after attaining the age of 21 years until the creation of the trust fund and one-eighth of the residue of the estate. Mary Julia Dover, a daughter residing in India, is bequeathed one-eighth of the residue of the estate.

BLAIRMORE UNITED CHURCH

"Serve the Church that the Church May Serve You."

Services for Sunday next:

10 a.m.—JUNIOR SCHOOL.

11 a.m.—SENIOR SCHOOL and PUBLIC WORSHIP.

No evening service during the months of July and August.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, B.A., Rector

Services Sunday next, August 28th—Evensong at 7 p.m.

Dr. Wellington Koo, former foreign minister, has been appointed Chinese minister to France.

It's a safe bet that there's more Scotch in the "dry" United States than Irish in Canada.

In Berlin, Germany, a man and two women, Communists, were sentenced to three years' imprisonment for "booming" at a meeting.

At least 4000 square feet of green sod will be necessary to replace that destroyed in the Olympic stadium oval at Los Angeles during the games.

Peter Veregin, jailed leader of Canada's Doukhobors, has resigned his position as head of the Christian Community of Universal Brotherhood.

It has never failed: During the past four weeks we lost two old subscribers, who were replaced by fifteen new ones. Sure, every knock is a boost to our business!

John Brown, an employee, shot and killed himself following an attempt to murder John Van de Sand, a farmer, aged 55, in the Macleod district on Tuesday night.

Jerry Carpenter, aged 45, of Proleta, Saskatchewan, was instantly killed when the truck, driven by his son, collided with a calf near Mooseleigh, Alberta.

An audience of 100,000 witnessed the 1932 Olympiad final ceremonies at Los Angeles, when flags of practically all nations lined up in procession form, headed by "Old Glory."

According to amendments to the game act just issued, porcupines are no longer protected. The amendment reads: "Any person may hunt, take, shoot at, wound or kill any porcupine."

Rev. Charles W. King, who some years ago held Baptist charges at Nelson and Cranbrook, died at Truro on May the 28th last, at the age of sixty-six. He was a native of Truro, N.S.

John Curry, senior, secretary of the Bellevue and District Horticultural, Industrial and Poultry Society, was a Blairmore visitor on Wednesday in connection with this year's annual exhibition, held each year on Labor Day.

Depression in the coal industry in Great Britain accounts for a rise of six thousand last month in the numbers of unemployed, the total on June the 27th being 2,753,380. Apart from coal workers, the number of those out-of-work decreased.

Miss Beatrice Nicholson, of Bellevue, visited this week at the home of her sister, Mrs. L. R. Hall. Miss Nicholson, in company with two other Bellevue teachers, has just returned home from summer school at Victoria, B.C.—Stavely Note.

The management and employees of the Hy-Grade mine signed an agreement covering a twelve-month period on Tuesday evening, similar in character to the agreement recently adopted by other union mines of the Drumheller district.

COMMUNISTS PLAN

ATHRIST CAMPAIGN
ALL OVER ENGLAND

LONDON, Aug. 19.—An avalanche of atheistic propaganda is to be let loose on England in the near future, according to reports from Moscow. One report says the task of disseminating large quantities of anti-religious literature is to be entrusted to leaders of the British communist movement, and that a National Atheist Congress is being planned for London.

A Moscow message to the Sunday Dispatch says that a department of the Communist headquarters here has been deputed to work "on the religious front."

This slogan "on the religious front" is used over a series of articles in the Daily Worker, communist organ published here. The paper states that: "The provisional committee of the British section of the Proletarian Free-thinkers' International (otherwise the International League of Militant Atheists) is hoping to have ready for issue shortly a manifesto which will state its aims and objects and call for adherents. If this call meets with an adequate response a conference will be called at which the organization will be formally launched and officials appointed."

The character of the campaign is manifest from the declaration in the Daily Worker that: "While the name materialist would suit us very well for the theoretical side of our work, the name 'atheist' seems best fitted to denote our practical militant attitude towards religion, the churches and the priests, as part of the front line defenses of the capitalist-imperialist social order. It strikes the note of aggressiveness we wish to import into the struggle."

Recommendation has been made that Admiral Sir David Murray Anderson, C.B.E., equerry to His Majesty, be appointed governor of Newfoundland, succeeding Sir John Middleton.

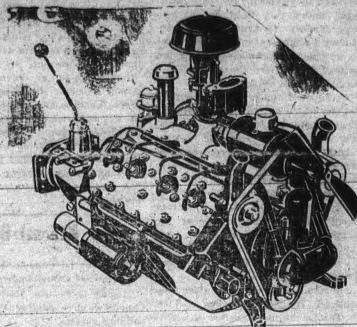

A strike of approximately twelve thousand school children has developed at Seattle, backed by a vote of the central federation of the Unemployed Citizens' League. The children are demanding new clothing.

The engagement is announced of Hilda, daughter of Mrs. Maude P. Clifford, of Coleman, and the late Harry Burton Clifford, of Grand Prairie, Alberta, to Harold Hugh, only son of Mr. and Mrs. J. J. Gardner, of Edmonton, the marriage to take place in September.

At Chicago, the economic situation has dignified the dance. Ballroom dancing has become more sedate and will become more so. American popular music is more adaptable to a slow tempo this season, making far more graceful steps. It is predicted that twist tango and Cuban steps, recently in vogue, will give way to the typical American steps next season.

In their visit to the National Research Laboratories which were recently opened recently by His Excellency the Governor General, the delegates to the Imperial Economic Conference, many of whom arranged to attend the function, were shown through the building and given a chance to study many interesting models used by the Research Council in their tests. Among these is a working model of the 6100 Northern Type Canadian National Railways locomotive, which has been the subject of extensive tests on the part of the Council in their studies of streamlining, smoke deflection, wind resistance and other problems in connection with motive power construction.

The locomotive model, which is a complete replica of the monster locomotive in use by Canadian National Railways, has been used from time to time in wind-tunnel and other tests for the purpose of comparing the latest model of construction with those of former years. The model in use was constructed by a retired locomotive engineer who has reproduced in miniature several of the newer models of Canadian National motive power units.

The New
Ford V-8

One look at the engine of the New Ford V-8 and you know it's a fine mechanical job. One ride in the car and you know it's the greatest value in the entire history of the automobile. Low, go-d-looking, roomy, smooth, powerful eight-cylinder performance. Exceptional acceleration. 75 miles an hour, 55 miles an hour in second. Silent second gear. Silent, synchronized gear-shift. Remarkable riding comfort because of the unique spring design and new Self-adjusting double-acting hydraulic shock absorbers, with thermostatic control. Low first cost and low operating cost.

To Protect Other Investments—keep a Savings Account

THE most dependable form of investment is money in a Savings Bank.

With most investments you have to sell at a loss to obtain cash in an emergency. But money in a savings account never depreciates in value. It is always ready for use and earns a steady 3% interest.

Whatever your circumstances, you should keep an adequate Savings Account as your private investment. At The Royal Bank of Canada you will receive efficient and courteous attention.

William Watson, of Macleod, has written a book on his struggles to obtain education. His arms have been hopelessly crippled from infancy and his mother trained him to write with his toes. He wrote his university examinations with pen between his teeth. It is a remarkable story of will power.

Introducing the idea of radically reduced excursion rates to steamer travel on the Great Lakes, the Canada Steamship Lines have cut the price of a seven-day autumn cruise by nearly 50 per cent. The cruise affected is that of the S. S. Noronic, leaving Detroit September 2 on her last regular cruise of the year. She runs to Sarnia, Port Arthur, Duluth and back to Detroit. The trip includes an overnight run up the Detroit River, a daylight cruise on beautiful Lake Huron and a passage through the world's busiest locks, at Sault Ste. Marie, as well as a voyage across Lake Superior into the heart of the Hiawatha country. A stop will be made at Canada's grain centre, Port Arthur, and at Minnesota's mountain city, Duluth. Special Canadian National Railways trains will connect with the Noronic at Detroit and Sarnia.

LODGE DIRECTORY

Blaimore Lodge No. 68, I.O.O.F.

Meets First and Third Tuesdays at 8 p.m., in the Oddfellows' Hall. Officers for the ensuing term: A. Tiberg, N.G.; A. Decoux, V.G.; J. Patterson, Recording Secretary.

Livingstone Lodge No. 22, KNIGHTS OF PYTHIAS

Meets in the Castle Hall on the Second and Fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: C.C. Thos. Gale; K. of R. & S. Senator.

BLAIRMORE LODGE NO. 15, B. P. O. ELKS

Meets Second and Fourth Tuesdays at 8 p.m. in the Lodge Hall. Visitors made welcome. H. O. Westrup, Exalted Ruler; J. R. McLeod, Secretary.

Ronald G. Rideout was at Winnipeg sentenced to ten years in this penitentiary and ten lashes, after being found guilty of holding up a bank there in 1920. He is to be taken to Montreal to face a charge of robbing a bank at St. Anne de Bellevue, Quebec. He has been tried at London, Ontario, on a similar charge.

The new Roman Catholic Cathedral at Liverpool, England, will be the largest church in the world, with an area of 235,000 square feet, compared with St. Peter's in Rome with 227,000. Its dome towers above Liverpool to a height of 510 feet. The new structure will cost in the neighborhood of three and a half million pounds, and will not be completed for at least thirty years.

When S. S. Prince Rupert, of the Canadian National Steamship, pulled away from her pier on the evening of August 15, it was her last trip of the present season to Skagway. Incidentally it was her 98th trip since arriving on the Pacific Coast more than twenty years ago. On her return to Vancouver, S.S. Prince Rupert will enter the fall schedule of the Canadian National Steamships between Vancouver and Prince Rupert.

An open season for prairie chicken in Southern Alberta has been declared, October 1st to 15th, inclusive. For Hungarian partridge, October 1st to November 30, inclusive. Provision is also made that: "No person shall at any time hunt, shoot at, take or kill any swans, cranes, pheasants, or any grouse, other than the sharp-tailed grouse (prairie chicken). The bird game license fee is \$2.00 for resident, and \$10 for resident of Canada outside of Alberta.

The S.S. Lemoyne, the first boat to pass through the new Welland Canal at its official opening this month, carried, as a statistician present reckoned, the world's greatest cargo of grain. "She has already carried 571,855 bushels of wheat at one load," he said, "and the cargo would make 12-350,000 two-pound loaves of bread. If you laid those loaves end to end, they would reach 2,350 miles, or a distance from the spot where the wheat was produced to the Atlantic. It would take 210 farms of 150 acres to grow the cargo and 280 60-ton railroad cars, or a train 2½ miles long to carry it. Seven average canal-size freighters would be needed to carry the cargo, which is enough to supply Canadian requirements for a day and a half. It would take 50 men, working with shovels 10 hours a day, 12 days to unload the ship."

District News

From Our Own Correspondents

CORBIN HAPPENINGS

Mrs. C. Venables gave a farewell tea in honor of her sister, Mrs. G. Butcher, on Monday afternoon. Among those present were Mrs. G. Butcher, Spokane; Mrs. W. Rowan, Calgary; Mrs. H. Jorgenson, Mrs. D. Waddington, Mrs. J. M. Barnes, Mrs. W. Goss, Mrs. P. Barstelli, Mrs. J. Matt, Mrs. E. Kittling, Mrs. J. Norquest, Mrs. W. Crossfield, Mrs. Navill (Medicine Hat), Mrs. T. Brace and Mrs. Venables. Mrs. Butcher, who has been the guest of her sister, Mrs. Venables, for the past month, returned to Spokane on Monday evening.

The annual Sunday school picnic was held at Cold Springs on Wednesday of last week. All kinds of outdoor games and races were arranged for the amusement of the children. With the river near by, swimming was also indulged in. Refreshments were served, and an extremely good time was had by both children and their elders. Mr. and Mrs. C. Venables are to be praised for their untiring and patient efforts in the local Sunday school, where they have been teaching the younger generation for the past several years, and as each summer comes along, they arrange for a day of fun in the form of a picnic for all the town children.

J. Thompson motored to Calgary during the week end, and returned, accompanied by Mr. C. Shaw.

Mr. and Mrs. B. Clarke and son Bertie have returned from an extended motor trip to various points in Ontario.

Mr. and Mrs. H. Jorgenson and son Harry were Calgary visitors last week end. Mrs. W. Rowan returned to Corbin with them.

Mr. and Mrs. T. Mansell returned this week from a motor trip to Montana. Their two children, Moira and Glenys, who have been visiting in the western States for some time, returned here with their parents.

Mr. and Mrs. W. Stone have as their guest Mr. and Mrs. Kneschew and sons, of Calgary.

J. Pottroth was a week end visitor to Calgary.

Mrs. J. Taylor and children are holidaying at McBain's Lake.

The fire that has been burning in some scrub timber south of Corbin for the past several days has been effectively quenched by the heavy rain.

Following a heat wave of several days' duration, a much wished for rain arrived on Saturday. This valley was the centre of a severe electrical storm, with the first bolt hitting just above the town. As the lightning struck the earth, several eye witnesses saw the earth ployed up, as if some huge object were plowing its way into the ground. The town lighting system was put out of commission by the bolt, and several hours elapsed before repairs were completed.

The Corbin girls' softball team again suffered defeat at the hands of the Coleman team, on Friday.

HILLCREST HAPPENINGS

Mr. and Mrs. B. Thornton and family returned last week from their visit to Spokane.

Mr. and Mrs. J. Penn and family motored to Calgary on Monday.

Miss Anne Hargreaves, of Lethbridge, is a visitor at the home of Miss Jennie Makin.

C. Lawrence returned from a holiday visit to Calgary last week end.

Mrs. James Leigh and daughter Vordun, who have been the guests of Mrs. J. Gorton, junior, for the past month, returned to Calgary on Wednesday.

Mrs. J. Norton, senior, and Mr. and Mrs. J. Norton, junior, of California, were visiting friends here last week.

Miss Mary Warriner returned last week from her visit to Calgary.

Miss Armstrong, of Calgary, is the guest of her sister here, Mrs. G. Cruickshank.

Mr. and Mrs. F. Willetts returned

from their visit to Calgary on Sunday.

Dr. and Mrs. G. B. Rose returned on Wednesday from their Banff-Windermere trip.

Mary Stevenson underwent an operation for appendicitis on Friday at the local hospital.

Miss Jennie Makin returned last week from a holiday spent in Lethbridge.

The local footballers lost to the tune of 5-1 to Drumheller here on Saturday. Due to the bad weather, and the consequent small attendance, it was decided that Drumheller pay a return visit here August 30th, Tuesday next.

Mr. and Mrs. G. E. Cruickshank and family returned from their trip around the Banff-Windermere on Wednesday.

Misses Ada and Irene Kuski, of Fernie, are visitors here with Mrs. D. Small.

W. Hutchison returned by auto from Vancouver last week.

A meeting of the Welsh Society was held on Monday night.

Mr. and Mrs. A. Blackie and family, of Fernie, were visitors over the week end at the home of Mrs. G. Bamborough.

BELLEVUE HAPPENINGS

Misses Beth Morris and Flo Barclay, who have been the guests of Mrs. D. Curry, left on Saturday morning for their homes in Lethbridge.

Miss Nora Spooner had the misfortune to fall and break her arm on Sunday morning.

Miss Charlotte Spooner left town for Macleod, where she has secured a position as maid.

Constable Bailey has been transferred to Lethbridge and left on Thursday evening.

Miss Helen Emmerson left on Friday night for an extended holiday at Calgary and other points in Alberta.

Mr. and Mrs. Hillary and family left for a holiday at Drumheller. While there, they will be the guests of Mrs. Hillary's mother.

Maple Leaf ladies' softball team defeated Frank Ladies on the local diamond on Monday night, 17 to 7.

Maple Leaf Mohawks softball team defeated the Miners 7 to 4 in a fast and exciting game on Monday evening. After the first two innings there was no doubt in the minds of the fans who would be the victors.

Pete Giniolo has returned home from Calgary, where he has been a patient in the hospital for the last seven months.

Mr. and Mrs. W. Prescott, accompanied by Miss May Dudley, of Hillcrest, enjoyed a trip around the Banff-Windermere highway, returning Monday morning.

Mr. Joe Quintillo is spending his holidays with his wife and family at Coal Creek.

Jack Hutton, of Vancouver, B.C., is visiting his grandmother, Mrs. Hutton, for a few days.

Mr. and Mrs. H. Newton, junior, are rejoicing over the birth of a baby boy.

Miss Alice Thomas, who has been the guest of Mr. and Mrs. R. Shovel, left on Thursday morning for her home in Taber.

Miss Gertrude May, of Medicine Hat, is the guest of her sister, Mrs. James Kerr.

Miss Marjorie Patton, of Lundbrock, is the guest of Miss Jennie Fournau.

A number of the Bellevue high school students intend to write the supplementary examinations at Blaimore, commencing on Thursday, the twenty-fifth.

COWLEY HAPPENINGS

William Lighthart, of Calgary, is a business visitor to the district.

Mrs. Jack Stainby, we regret to say, is a patient in hospital at Calgary, where she will undergo an operation for appendicitis and gall stones.

David Smith, Cowley old timer, who on returning from a two-weeks' camping trip with friends in the Gas, was renewing old acquaintances in town and returned Sunday to his home in Lethbridge.

Dr. C. C. Johnson and family, of Calgary, were renewing acquaintances in Cowley on Wednesday, while on their return trip from a motor holiday trip to Cranbrook, Creston and other B.C. points.

Miss Edith Murphy is on a half-day visit to Corbin with her sister, Mrs. L. V. M. Peel.

Threshing, which began in the district over a week ago, has been held up for the last few days on account of a heavy rainfall. Farmers are rejoicing over the wet spell, as the land is in need of a good soaking. The large acreage of fall wheat now needed will benefit by the rain.

A parliamentary candidate whilst addressing a meeting was frequently interrupted by a man who kept on saying, "You're silly." The would-be M.P. could stand it no longer and suddenly exclaimed: "You're drunk, man, you're drunk." "Aye, I know," retorted the tipsy one, "but I'll be sober in the mornin' and you'll still be silly."

WORLD HAPPENINGS
BRIEFLY TOLD

The will of the late King C. Gillette, safety razor manufacturer, naming his widow as the sole beneficiary was probated at Los Angeles. Attorneys said the estate would be in excess of \$1,000,000.

Believed to be the last survivor of the Sixth Regiment, which took part in the Riel Rebellion at Cut Knife Creek and Fish Creek in 1885, Sergeant-Major Uesbe Beaudoin, 66, is dead at Lachine, Que.

Two thousand five hundred dollars for an individual prize for the best sample of wheat shown at the World's Grain Exhibition next year at Regina, is the largest of its kind ever offered.

Final payment to farmers for all wheat pooled during the 1931-32 season has been made by the Alberta Wheat Pool, Inc. It was announced by H. D. Purdy, general manager. Total payment amounted approximately to \$200,000.

Automobiles on farms in Canada have doubled in the past 10 years and there is now a car for every 227 farms, figures issued by the Dominion Bureau of Statistics show. There are 726,628 farms in the Dominion and on them 321,306 automobiles.

There are 5,951,411 single persons in Canada and 3,971,198 married; it is revealed in census figures on conjugal conditions released by the Dominion Bureau of Statistics. Of the population of 10,376,786, males number 5,374,451 and females 5,002,245.

Preserving Fish By
Brine-Freezing Method

Process Used in Scotland Has Been Gratifying Success

Brine-freezing, a new method of preserving fish caught in the sea, the result of research work carried out at the Torry Research Station, Aberdeen, is regarded as a gratifying success and an exhibition of cod, sole, halibut, plaice and rock salmon frozen by this process was given recently at the Department of Scientific and Industrial Research, London.

The fish had been caught by the research vessel "City of Edinburgh" weeks previously. Some of them were tried at the department and guests enjoyed an early luncheon of fried fish at the government's expense.

This new process will, it is claimed, revolutionize the method of preserving fish. Trawlers will freeze fish as they are caught instead of, as at present, storing them in ice while the trawler is at sea. A. Lumley, superintendent of the Torry Station, said that one of the disadvantages of fish frozen under old methods had been that it was not ultimately nice to eat.

In the brine-freezing process the fish are dipped into a solution of sodium chloride (or brine) carried on board in a tank at a temperature of five degrees Fahrenheit. Then they are stored at a temperature of five degrees, and experiments have shown that fish so treated can be kept in perfect condition for three months.

"The cost of installing the new plant on board is about \$8,500, but it is claimed there would be a real saving, because of the avoidance of loss on fish caught early in the voyage. A Billingsgate fish merchant says the brine-frozen fish was almost as good as freshly caught fish.

Lacked Vision

Hotel Proprietor—"Now, over there is the sea."

Copy Writer—"Where? I can't see it."

Hotel Proprietor—"You can't." My dear sir, I'm afraid you're not the man we want to write our advertisements."

Another Scotchman died as a result of a broken heart in Edinburgh last week. It seems that his doctor insisted that he give up smoking just after he had had his cigarette lighter refilled.

W. M. 11 1934

An Important Industry

Demand For Lobsters From Canadian Waters Is Growing

The lovely lobster has climbed to a high place of importance among Canadian industries and offers one of the brightest horizons on the Dominion's business horizon, according to a bulletin just released by the Department of Immigration and Colonization of the Canadian Pacific Railway.

"Both in the United States and Great Britain, demand for lobsters from Canadian waters has been growing, and the industry is in a healthy state," the bulletin stated. "Lobsters now are second only to salmon as the most important fishing enterprise in Canada, the salmon industry being centered largely in British Columbia and the lobsters coming chiefly from the Atlantic coast near Halifax, N.S."

The bulletin told of a new record for a single shipment of canned lobsters which recently was made to Great Britain. The shipment contained 10,000 cases and was valued at \$200,000.

Novel Use For Planes

Japanese Army Machines Search For Active Volcano

Japanese army planes were put to the novel use of scouting for an active volcano. Reports came to Harbin that an extinct volcano in the Hinggan range to the west had suddenly become active. Bombings were reported as heard in a place 25 miles away from Harbin. The planes failed to locate any evidence of eruption. Russian scientists reported 13 volcanoes in the Hinggan range back in the 18th century.

Eliminating Noise

Milk Concern In New York Is Doing Its Bit

A large milk concern serving New York City has actively entered upon a noise abatement campaign. By equipping its horses with rubber cushions for their shoes, and providing its drivers' milk bottle baskets with rubber shock-absorbers, it plans to lessen the din of early morning milk deliveries.

A necropolis is a burial ground, usually of great size, or one found near the site of an ancient city.

NEW DEEP WATER ROUTE FOR WESTERN WHEAT

Most fittingly, the vital new link in the Great Lakes system, Canada's \$128,000,000 new Welland Canal, was opened, officially, by sending the greatest grain-carrier afloat, S.S. Lemoyne of Canada Steamship Lines, through the eight locks to Kingston with the biggest cargo of western wheat moved

A Big Cargo

Lake Vessel Carries Enough Wheat To Bake 15,500,000 Loaves

An old salt sat on the bank of the new Welland Canal. Beside him sat the statistician. Talk veered uncertainly from one subject to another. Then it reached record cargos. "And the statistician got busy."

When the "Lemoyne" opened the canal, she carried the world's greatest cargo of grain, he said. "She has already carried 571,885 bushels of wheat at one load, and that cargo would make 15,500,000 two-pound loaves of bread. If you laid those loaves end to end they would reach 2,850 miles for the distance from the spot where the wheat was produced to the sea. It would take 210 farms of 10 acres to grow the cargo and 286,000-ton railroad cars, or a train 2 1/2 miles long to carry it."

"Well," said the old salt, tapping his pipe reflectively against the snubbing post, "that's quite a load. I remember when the first steamship, 'Theerin', pulled out of Port Arthur with her record cargo. It was 30,000 bushels."

Britain Perfects Super-Tanks

Much Stronger and More Efficient Than Old Type

Great Britain was the first nation to use "tanks" in warfare. Since then these instruments of destruction have been greatly improved so that England leads the world in such weapons. The latest tanks are covered with armour plate much stronger than before and capable of resisting even the new German super-bullet, which blasts its way through the armour of the old-type tanks. They have also perfected a more mobile light tank capable of negotiating ditches, streams, trenches and other gaps much wider than its predecessors could have negotiated.

What It Stood For

A tiny butcher shop recently opened in a Connecticut town; wedged into a small store room, "bears the impressive firm name of Williams & Gilchrist, Ltd. Asked what the Ltd. stood for, "Stands for 'limited,'" Mr. Gilchrist said. "You see, we're limited to meats and nothing but meats."

"What is a paradox, mister?"
"Two wharfs side by side, sir."

Utilize White Whales

Hides May Be Used For Manufacture Of Fancy Leather Goods

The two white whales brought to Winnipeg from Hudson Bay by the Industrial Development Board of Manitoba have been rendered at the St. Boniface abattoirs and they provided 35 per cent. of their total weight in excellent quality oil, bearing a slight odor, and being only slightly stronger than olive oil. The board hopes to develop a new industry on the northern water body.

The hides are now in process of tanning which will take some time, but leather workers believe it will prove suitable for the manufacture of ladies' handbags, and other fancy leather goods. Minute study of the outer skin reveals a mottled effect with alternating patches of smooth and rough skin. Hubber almost two inches thick adheres to the hide, but comes off readily.

A Token Of Gratitude

German Soldier Pays Tribute To Humanity Of American Doughboy

A little silver coin bracelet to commemorate the humanity of an unknown "doughboy" who saved the life of his enemy was recently deposited in America's war museum at West Point.

August Ullrich, late of the Kaiser's armies, sent the trinket from his death-bed and with it this note: "Before I will have to depart, I intend to fulfill the promise I gave to a soldier of the American army, who saved my life in 1918."

"I therefore lay in your hands a bracelet made out of old German coin as a sign of appreciation for a nation whose soldiers even in war treated their enemies with great consideration."

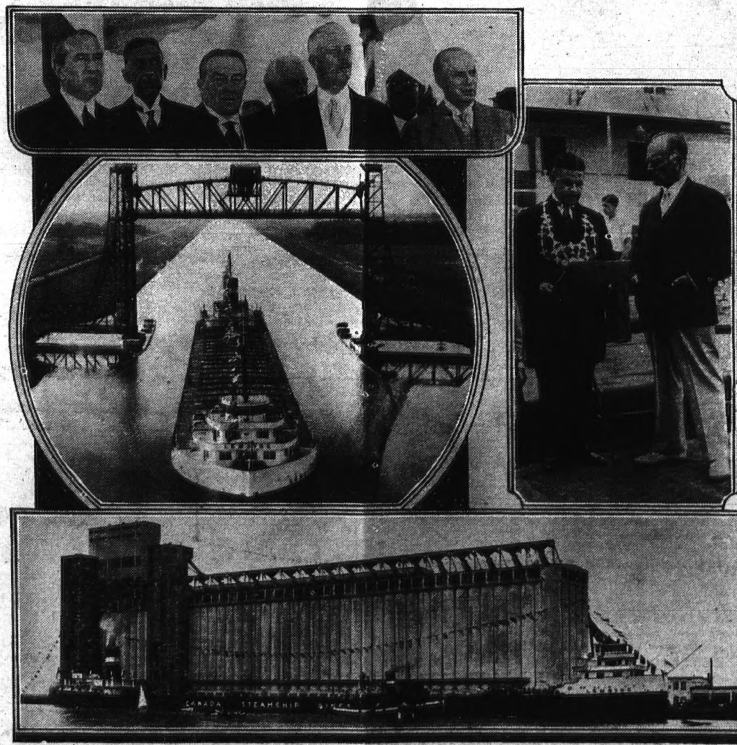

Artificial Lighting
For Office Buildings

Would Provide Uniform Glow Which Is Easier On Eye

Some authorities on illumination contend that the office buildings of the future will be built without windows and will employ artificial ventilation, also artificial lighting throughout, in an effort to secure a uniform glow which will not tire the eyes. An instrument has been invented which tests accurately the effect of various lights on the eyes.

OPENED BY WORLD'S GREATEST GRAIN VESSEL

In two years, a load of grain over 150,000 bushels greater than had ever been shipped through the lower locks in history. The Governor-General, delegates to the Imperial Conference, Rt. Hon. R. B. Bennett and members of the Cabinet all attended the opening ceremonies at Thorold.

Photos show: top left: Rt. Hon. Stanley Bruce, of Australia; Rt. Hon. Stanley Baldwin; His Excellency, Earl Bessborough; and Rt. Hon. R. B. Bennett with two members of the Indian delegation at the canal ceremonies. Left center: the giant 633-foot S.S. Lemoyne passing under one of the canal 120-foot electric lift bridges. Right center: marking the inauguration of a new eastern deep-water terminus for grain at Kingston and the fact that only 200 miles of river navigation now remain to each the export port of Montreal—Mayor G. C. Wright, of Kingston, conferring the freedom of the city on W. H. Coverdale, president of Canada Steamship Lines aboard the freighter on arrival. Bottom: "The practical consummation" of the ceremony—S.S. Lemoyne prepares to unload her cargo of 532,000 bushels, shipped by James Richardson & Sons, of Winnipeg, at Kingston's new elevator which has already, for 1932, handled 4,000,000 more bushels than it did in the whole of the preceding year.—All photographs by Canada Steamship Lines.

SUNDAY SCHOOL LESSON

AUGUST 28

GIFTS FOR BUILDING THE
TABERNACLE

Golden Text: "Honor Jehovah with thy substance, and with the first fruits of all thine increase."—Proverbs 3:9.

Lesson: Exodus 35.4 to 36.7.

Devotional Reading: Psalm 84.1, 2, 8-12.

Explanations and Comments

The Call For Contributions For the Sanctuary, Exodus 35.3-20.—Moses assembled the people and addressed them, probably from a raised platform. He reminded them that it was God's desire to have a sanctuary where He might meet them and they might offer Him their worship. He called for voluntary contributions of materials and labor for the sanctuary and its equipment and for the vestments of the priests. There was one restriction; the givers of gifts must be "willing-hearted," and the laborers "wise-hearted." The people listened and quietly went back to their tents.

"You might have wondered whether they would return, since so little had been said to touch their emotions and arouse their enthusiasm. How different this seems to the methods in use today to extract money from reluctant hands!"

"An Old Subscription List," verses 21-28.—This heading is the happy title which Dr. Alexander MacLaren gives to his exposition of this chapter. "Let each man do according as he hath prospered in his heart," urged Paul to the Corinthians, "not grudgingly or of necessity; for God loveth a cheerful giver." The man and woman on this old subscription list fulfilled that injunction of Paul's. They came—a great crowd of willing givers, "every one whose heart stirred him up, and every one whom his spirit made willing," laden with gifts needed for the building of God's house and for "the holy garments," the garments consecrated for use in the sanctuary.

"The world asks, 'How much does he give?' Christ asks, 'Why does he give?'"—John R. Mott.

"They were refugees, where there were no stores or workshops. Materials for the tabernacle must come from their private hoards. From Exodus 12.35, 36 we learn that the children of Israel on leaving Egypt asked of the Egyptians 'jewels of silver and jewels of gold, and raiment; and Jehovah gave the people favor in sight of the Egyptians, so that they let them have what they asked, and they despoiled the Egyptians.' These treasures now the people poured out for Jehovah's use. Every gift was a sacrifice. It could not be replaced.

There are 121 languages spoken by the 461,000,000 inhabitants of Europe.

Vast Wool Trade

Two-Thirds Of The World's Wool Produced In British Empire

Nearly one-half of the world's raw wool, a survey by the Empire Marketing Board shows, and more than two-thirds of the wool spinning world trade is produced within the British Empire.

Concerning Canadian production, the survey, a portly volume of 200 pages, says that appreciable progress has been made since 1924, though the high point reached just after the war has not since been attained. The sheep population is increasing steadily, and there is no reason to doubt a slow upward trend in wool production. Quebec and Ontario together are responsible for about one-third of the Canadian clip, but their share has been gradually diminishing, with that of the Western Provinces increasing. The sheep population of the world is estimated at nearly 80,000,000, of which about one-third are in the Empire.

Recipes For This Week

(By Betty Barclay)

PIN WHEEL DISCUTS

- 2 cups special cake flour, sifted.
- 4 teaspoons baking powder.
- 1/2 teaspoon salt.
- 4 tablespoons butter or other shortening.
- 1/2 cup milk.
- 4 tablespoons butter, creamed.
- 1/2 cup brown sugar.
- 1/2 cup pecan meats, chopped.
- Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening. Add milk gradually until soft dough is formed. Roll 1/4 inch thick on slightly floured board. Spread with creamed butter; sprinkle with brown sugar and nuts. Roll as for jelly roll and cut in 1-inch pieces. Place greased muffin pan with sides up. Bake in moderate oven (375 degrees Fahrenheit) 30 minutes. Makes 12 biscuits.

ORANGE BLANC MANGE

(Serves 6-8)

- 1 1/2 cups evaporated milk.
- 1/2 cup sugar.
- 1/2 teaspoon salt.
- 4 tablespoons cornstarch.
- 1 1/2 cups orange juice.
- 1 teaspoon grated orange rind.
- Heat milk in double boiler. Mix sugar, salt and cornstarch. Blend with part of orange juice. Add with remaining juice to hot milk. Add grated rind. Cook until smooth, stirring frequently. If orange juice curdles milk, beat with whirly top beater. Four into individual serving dishes and chill. If desired to mold, increase cornstarch 1 tablespoon.

Settlement Plan

Saskatchewan Families Taking Advantage Of Government Scheme

Out of 507 families approved for the Saskatchewan Government land settlement scheme a total of 318 had actually gone to farms up to August 6, according to a statement issued recently.

Further classification of this number showed that 125 families had taken up residence on purchased land and 193 on homesteaded lands.

Figures for the cities were: Regina, number approved 138, actually gone 58; Saskatoon, number approved 268, actually gone 172; Moose Jaw, number approved 73, actually gone 38.

Origin of other families included in the settlement movement were: Arcola, 1; Yorkton, 1; Estevan, 10; Cupar, 1; Indian Head, 1; Edenwold, 1; Vonda, 1; Sutherland, 4; Weyburn, 8; Gravelburg, 1.

Trials Of A Newspaper

The following item appeared in The Journal, Bates County, Georgia: "We done a good business Saturday. Judged type that cost 50, put in \$60 worth of new type and collected \$1 subscription. We tried 'em on corn last week, but had little success. This week we call for peanuts on subscription. This is as far as we go now. Don't want any hickory nuts."

An unwelcome guest is one of the best things going.

Milne's Meat Market
Jas. Milne, Prop. — Phone 46 — Blaimore, Alberta

Times are so bad now that the girls are walking both ways.

The Bank of Nova Scotia is one hundred years old this month.

Mrs. Bond will resume her classes in piano on Monday next, August 29th.

Herbert Baxter, of Lethbridge, has been appointed manager for the Safety store at Claresholm.

Mr. and Mrs. W. D. Spence, and Mr. and Mrs. C. W. May returned to Edmonton and Calgary, respectively, last week end.

If Alberta's premier did not patronize the government vendor stores in the Crown's Nest Pass, perhaps it was because prices were too high.

Kong Sing Chin On, popular Chinese merchant of Hillcrest, is forced onto a set of crutches by rheumatism.

After saying nothing in fifteen minutes of talk, one of the strike leaders addressing an open-air audience, at Blaimore wound up with: "An' ladies and gentlemen, dat's all I 'av to say."

Important improvements are being made to the residence of E. Jones on Eighth Avenue.

Mrs. T. Smith, of Bellevue, has been visiting at Drumheller with her sister, Mrs. Atherton.

Mrs. Bruno Fabro and Ronnie, of Kimberley, are visiting friends and relatives at Acme, Alberta.

On Sunday next, a new United church at Parr, Alberta, will be dedicated, Rev. Dr. Thomas Powell officiating.

Frank Flett, of Cardston, is credited with landing a twenty-five-pound trout at upper Waterton Lakes. Frank is a plumber, and they don't lie!

W. H. Chappell, junior, returned last week end from Calgary, where he had been for several weeks consulting a specialist in regard to internal ailment.

Seven thousand scientists and university professors from all parts of the world, except Russia, are due to arrive at Blaimore at any time to hear Frank Leary's lecture on the subject "There is no God."

Local and General Items

The local schools reopen for the fall term on Monday next.

Alberta's premier, Hon. J. E. Brownlee, was a visitor to Blaimore on Friday last.

Mr. and Mrs. S. Trono and Beatrice returned last week end from a holiday visit to Calgary and Banff.

"Men will wear gray this fall," says a fashion tipster. We will—because we wore gray last fall.

W. Blizard and family returned home to Kimberley Monday, from a brief holiday visit to Lethbridge.

Mr. and Mrs. C. B. Barrell, of the Yale hotel, Calgary, were visitors this week with relatives and friends in Blaimore.

Mrs. H. Marquis, of Pincher Creek, joins Mr. and Mrs. L. L. Morgan, here today on a motor trip to Spokane and other western points.

Another son was born to Mr. and Mrs. Charles A. Lindbergh on August the 16th, bringing happiness back to a home long darkened by deepest tragedy.

Mr. and Mrs. G. A. Passmore, Basile and Mildred will be at the Montrose Apartments, 1190 - 12th Ave. West, Vancouver, B.C., after August 27th, for two weeks.

Mrs. Davidson and daughter, of Calgary were visitors on Tuesday with Mrs. and Miss Chardon here, returning to Calgary yesterday. Mrs. Davidson was formerly Miss Cogland, of the Blaimore teaching staff.

Miss E. M. Fulton, former member of the Blaimore teaching staff, now of Calgary, returned last week end from an enjoyable holiday trip by motor to the Pacific coast, accompanied by three girl teacher friends. Miss Fulton is spending a few days at Cowley with her sister, Mrs. H. C. Morrison, and family.

The heavy rain of Sunday night played havoc with the Blaimore water system. The main broke loose in several places and householders were very much annoyed all day Monday over the water being polluted by what appeared to be coal dust, evidently washed in from the old International refuse dumps on York Creek and finding its way into the reservoir. Many water pipes became choked with gravel, necessitating a call for the plumber.

Capt. W. A. Beebe returned on Wednesday last from Calgary, where he had been duly initiated as a fledgling member of the Yukon Veterans' Association. At the gathering, "Cap" met quite a number with whom he had come in contact in the good old gold-rush days, and scores of reminiscences were exchanged. The Yukon Veterans' Association has now become an established organization, that will hold meetings annually. At this year's meet, veterans had gathered from practically all parts of the globe. Cap. was the first of the gathering to be decorated with a membership badge.

Man's obstinacy and refusal to reason is responsible for many blunders. After six months of absolutely useless strike at Bellevue and Blaimore, not a point has been gained under "Red" leadership. Having gone so far, the so-called leaders are in a quandary. They cannot now advise the men to return to work on the old agreement, because they have bolstered them up with promises that they would win. They are now as far from winning as in the first week of the strike. There is only one way in which peace will be restored. That is by knocking the props from under the present leaders and appointing men in their places who will follow common-sense methods. A retreat is the only course left open to those who have led the miners into the wilderness. But are they wise enough to even acknowledge their own pig-headedness?—Coleman Journal.

Miss Kathleen Tompkins spent part of her vacation at the Pacific coast.

Miss Madeleine Chardon will resume her piano classes on Monday next, August 29th.

We regret to learn that William Kerr, of Bellevue, is confined to his home with an injured back.

G. H. Snood, manager of the Blaimore Hardware store, is able to be around, following a siege of illness.

WANTED TO RENT—Furnished or unfurnished house, with bath and toilet. Apply to Box 1936, Blaimore.

Dr. Taylor, of Edmonton, is relieving Dr. Stewart at the local hospital. Dr. and Mrs. Stewart are enjoying their annual vacation.

Miss M. Chardon is a motor visitor to Calgary for the week end. She was accompanied by her mother and Mrs. Davidson and daughter.

J. D. Matheson, K.C., and Mrs. Matheson, of Macleod, have returned home, after a pleasant visit with Mr. and Mrs. A. A. MacKinnon at Cranbrook.

It costs ten dollars in postage stamps alone to send one thousand bills through the mails, and for that price you can get a good-sized advertisement in The Enterprise, which has a distribution to approximately 1200 families.

The concert staged by the local W. I. R. at the Orpheum Theatre on Sunday night was greeted by a packed house. A splendid programme was rendered, including songs, instrumental selections, dances, acrobatics and a play entitled "The price of coal." (The price was alright, but there was no market.)

Many farmers have been so hard hit this season, with poor crops, etc., that they are unable to help themselves, and the suggestion has been made that as soon as the miners of Bellevue and Blaimore have had a couple of pays tucked away, a canvass should be made for financial assistance. Wonder how many will feel duty bound to repay the many good turns done them during the strike by farmers that could ill afford it.

A dance will be held in the Columbus hall on Wednesday night next, under auspices of the Blaimore Colliers' softball club. This pleasant event follows a series of games to be played during the evening between the following teams: Blaimore Colliers—Ferne Folles, Blaimore Floaters—Ferne Centrals, Blaimore Floaters—Crowsnest Cleaners. The first game is to start at 5 p.m. Proceeds of the dance and games will go towards the Amateur Athletic Association funds, to help defray expenses of the recent Provincial Junior Field and Track Meet.
